

### IGBT MODULE (S series) 1200V / 15A / PIM

#### ■ Features

- Low  $V_{CE(sat)}$
- Compact package
- P.C. board mount
- Converter diode bridge, Dynamic brake circuit

#### ■ Applications

- Inverter for motor drive
- AC and DC servo drive amplifier
- Uninterruptible power supply

#### ■ Maximum ratings and characteristics

● Absolute maximum ratings ( $T_c=25^\circ\text{C}$  unless without specified)

| Item                            | Symbol                              | Condition | Rating                         | Unit                   |                      |   |
|---------------------------------|-------------------------------------|-----------|--------------------------------|------------------------|----------------------|---|

| Isolation voltage               | between terminal and copper base *2 | $V_{iso}$ | AC : 1 minute                  | AC 2500                | V                    |   |
|                                 | between thermistor and others *3    |           |                                | AC 2500                |                      |   |
| Mounting screw torque           |                                     |           | 3.5 *1                         | N·m                    |                      |   |

\*1 Recommendable value : 2.5 to 3.5 N·m (M5)

\*2 All terminals should be connected together when isolation test will be done.

\*3 Terminal 8 and 9 should be connected together. Terminal 1 to 7 and 10 to 24 should be connected together and shorted to copper base.

● Electrical characteristics (Tj=25°C unless otherwise specified)

| Thermal resistance ( 1 device ) | Rth(j-c) | Inverter IGBT         |                 |      | 1.14 | °C/W |
|                                 |          | Inverter FWD          |                 |      | 1.85 |      |
|                                 |          | Brake IGBT            |                 |      | 1.14 |      |
|                                 |          | Converter Diode       |                 |      | 1.30 |      |
| Contact thermal resistance *    | Rth(c-f) | With thermal compound |                 | 0.05 |      |      |

\* This is the value which is defined mounting on the additional cooling fin with thermal compound
