

## Standard Diodes, 100 A (ADD-A-PAK Generation 5 Power Modules)

**ADD-A-PAK**

<b>PRODUCT SUMMARY</b>	
I <sub>F(AV)</sub>	100 A

### MECHANICAL DESCRIPTION

The Generation 5 of ADD-A-PAK module combine the excellent thermal performance obtained by the usage of direct bonded copper substrate with superior mechanical ruggedness, thanks to the insertion of a solid copper baseplate at the bottom side of the device. The Cu baseplate allow an easier mounting on the majority of heatsink with increased tolerance of surface roughness and improve thermal spread.

The Generation 5 of AAP module is manufactured without hard mold, eliminating in this way any possible direct stress on the leads.

The electrical terminals are secured against axial pull-out: they are fixed to the module housing via a click-stop feature already tested and proved as reliable on other Vishay HPP modules.

### FEATURES

- High voltage
- Industrial standard package
- Thick copper baseplate
- UL E78996 approved
- 3500 V<sub>RMS</sub> isolating voltage
- Totally lead (Pb)-free
- Designed and qualified for industrial level

**RoHS**  
COMPLIANT

### BENEFITS

- Up to 1600 V
- Fully compatible TO-240AA
- High surge capability
- Easy mounting on heatsink
- Al<sub>2</sub>O<sub>3</sub> DBC insulator
- Heatsink grounded

### ELECTRICAL DESCRIPTION

These modules are intended for general purpose high voltage applications such as high voltage regulated power supplies, lighting circuits, temperature and motor speed control circuits, UPS and battery charger.
